

# Darien McCullen

Secaucus, NJ | 201-555-0187 | [dmccullen@email.com](mailto:dmccullen@email.com)

## Summary

---

Recent graduate with a bachelor's degree in computer science and exemplary data analysis and engineering experience seeking a DevOps Engineer position.

## Education

---

### San Diego Technical College

Bachelor of Science in computer science

## Experience

---

HCORP, Secaucus, NJ, DevOps Engineer

April 2020 – Current

- Create workflows for source code management to ensure efficiency and cut down on human error
- Develop and maintained Ci/CD methodologies to speed the development process through automation
- Design and implemented disaster recovery solutions in case of breach or server crash, as well as security measures like firewalls and VPNs
- Update procedure documentation to improve training procedures and create lasting records of mastered skills for each employee to help with task delegation
- Consult with clients and confirmed system power requirements to update design documents, test results and designs

Stanley Systems, Secaucus, NJ, Systems Engineer

May 2017 - April 2020

- Served as team lead for two years
- Performed in-depth root cause analysis by troubleshooting network and production issues periodically
- Wrote automated Unix scripts to reduce manual labor and improve efficiency by 10%

Routing Co., Secaucus, NJ, Systems Intern

June 2016 - September 2016

- Assisted at all levels of the engineering process, including analysis, development, documentation, integration and testing
- Attended meetings with clients and kept a record of client requests and project parameters
- Developed processes to monitor systems and performed data collection while adhering to maintenance regulations
